

Investor Webinar Friday 28 November 2025

Company to Brief Investors on Latest Drill Results and Forward Exploration Program

Advance Metals Limited (**ASX:AVM**) (“**Advance**” or “**the Company**”) advises that the Company will host an investor webinar where Managing Director and CEO Dr Adam McKinnon will discuss the company’s recent announcements and provide an update on the Company’s two high impact growth assets: the Myrtleford Gold Project in Victoria and the Yoquivo Silver-Gold Project in Mexico.

DATE & TIME: Friday 28 November 11:00am AEDT / 8:00am WST

REGISTRATION LINK: https://janemorganmanagement-au.zoom.us/webinar/register/WN_tyRWgbyUTWGtxYPZehxNHg

A recording will be made available to investors following the session.

The webinar will cover a series of material updates, including:

Myrtleford Gold Project – Happy Valley (Victoria)

- Deepest hole AMD014A hit high-grade gold ~140m below previous depth, confirming strong down-plunge continuity.
- Visible gold previously reported in AMD014A has now been confirmed by assays.
- Key assays: 3.7m @ 16.6 g/t Au from 464.5m, incl. 0.8m @ 62.3 g/t Au from 465.6m.
- High-grade mineralisation now extends >500m vertically and remains open in all directions.
- Drilling ramped up with a second diamond rig now operating on the Happy Valley Trend.
- Maiden drilling underway at Queen of the Hills (~4.5km away), first modern test of this historic area.
- Programs fully funded following the \$13m placement.

Yoquivo Silver-Gold Project (Chihuahua, Mexico)

- Fully funded diamond drilling restarted to grow the high-grade Pertenencia vein.
- Targeting extensions to the current Foreign Estimate: 17.23 Moz AgEq @ 570 g/t AgEq.
- ≥3,000m planned, running into early 2026.
- Regional targets to be tested, including veins with rock chips up to 1,594 g/t AgEq.
- Historic core re-logging/re-assaying shows upside, with grades up to 848 g/t AgEq.
- Results to support a JORC Resource upgrade in early 2026.
